THE MAN WHO TOILS

Is the man who ought to have the best things to eat, because his system requires it. Workingmen and everybody else who want the best meat come to my shop. My place is clean. The meat I sell is tender and fresh. The prices I ask are low enough to suit anybody. If you knew how particular I am to give satisfaction, you'd never buy elsewhere.

CENTRAL MEAT MARKET.

CHIEF OF GROUP

**Spreckelsville Plantation
to Be Great Producer.**

Passage into Control of Island
People—Water Development.
Dream of First Owner.

(Planters' Monthly).

The transfer of the ownership and control of the Hawaiian Commercial and Sugar Company's plantation, better known as the Spreckels' Plantation on East Maui, is one of the most noteworthy and largest deals in sugar plantation property that has ever taken place in Hawaii or perhaps elsewhere. This plantation was started by Col. Spreckels twenty years ago, on a scale far more ambitious than any previous venture of the kind in these Islands. The extent of land covered by the deeds and leases, exceeds 30,000 acres, 25,000 of which are capable of producing five tons of sugar to the acre, provided water can be obtained for irrigation, as the land consists of rich alluvial and volcanic soil, such as is now being planted by the Oahu Sugar Company on this Island. Colonel Spreckels once told the editor of this periodical that he hoped some day to see a crop of 40,000 tons of sugar taken off from it, and his early dream is still among the possibilities of the near future, to be accomplished by other parties.

For some reason not been known nor even suspected, there had been for several months considerable activity in the shares of this estate, which, in consequence steadily increased in value, till lately \$34 have been paid to secure them. It seems that a combination of minded men of Hawaii and California, having full confidence in the original estimates of Col. Spreckels, and his plan to develop the largest sugar plantation in Hawaii, and having determined to secure the control of it, had been quietly purchasing all the shares offered by public or private sale, till over two-thirds of the issued stock had been secured, when a meeting of the shareholders was called, at which it developed that the control of the company's affairs had passed from the original owners, and a new directorate was called for and chosen, to the surprise of every one, including the former board, which gracefully surrendered to the inevitable. The old board was practically controlled by Rudolph and C. A. Spreckels, while their successors are residents of Hawaii and California.

The capabilities of his fine estate are almost unlimited, and under the new directorate, with abundant resources to develop the now latent artesian water supply, which is believed to be practically inexhaustible, it is among the possibilities of the near future that the ambition of Col. Spreckels to turn out 40,000 tons of sugar annually, may yet be accomplished by his successors. (The present owners of the great property have planned already for a production of 30,000 tons of sugar.)

CHRISTMAS BOXES.

Chance to Send Presents to Friends in Manila.

WASHINGTON, Oct. 17.—The quarter-master's department of the army is arranging to extend its good offices in the direction of transporting a reasonable amount of Christmas gifts to the American soldiers in the garrison at Manila. It will be necessary to start a steamship from San Francisco early in November in order to reach the Philippines by Christmas.

The rigid rule has been laid down that Christmas boxes for the soldiers at Manila must not contain quantities of sweet things calculated to disturb the digestion of men living in the tropics. Minced meat, fruit and cake and candy will be permitted only in small parcels, and it is advisable that packages be limited in weight, as the department will not be able to forward over 1,000 tons at the utmost. The packages will have to be delivered at San Francisco without expense to the Government, which has no fund for transporting such supplies, and it is essential that the Quartermaster-General shall give permission in each case for the package to go aboard a Government transport.

BET SUGAR REFINERY.

PEORIA (Ill.), Oct. 18.—This city expects to be the first in the Middle West to establish a beet-sugar factory and a plant to cost \$400,000. Peoria has been interested in the sugar-beet question for several years. Experiments were made and it was found that the soil in this territory was well adapted to the cultivation of sugar beets. Business men encouraged the beet-raising project. Having shown that the raw material could be profitably produced, it was determined to raise money to operate a plant for its conversion into sugar. For this purpose \$400,000 will be needed. Much interest was manifested and \$50,000 was subscribed at once.

COLLAR TRUST.

NEW YORK, Oct. 18.—It is stated that the contemplated collar combine in this city is about consummated. It is intended to embrace most of the collar factories in this city and to control the collar trade of the world.

The trouble in completing the combine has been the price asked by some of the manufacturers for their plants. It is expected to take in such firms as Olcott, Coon & Co., the largest in the world; George Pide & Co. and the United Shirt and Collar Company. It will require a capital of about \$50,000,000 and it is stated that J. P. Morgan & Co. of New York are back of the enterprise.

AMERICAN NAVY.

Fifty-Five Vessels Now Under Construction.

WASHINGTON, Oct. 18.—The remarkable rapidity with which the naval power of the United States is being increased at the present time may be realized when it is stated that fifty-five war vessels are now under contract for the Government and that their aggregate tonnage far exceeds that of the vessels building at any one time in the Civil War. Of the fifty-five vessels eight are first class heavily armored seagoing battleships, thirty-eight are torpedo boats, four are monitors and one is a powerful cruiser.

The battleship Wisconsin, which is to be launched at the Union Iron Works at San Francisco next month, is exactly half finished. Of the ten torpedo boats the twenty-six knot Rowan (No. 8), at Seattle is rated at 99 per cent, and will have her trial trip before the end of this week. The thirty-knot Farragut (No. 11), the first of the destroyers to be issued by the Government, has already been tried by the Scotts at San Francisco, and, although really making her guaranteed speed, has had the misfortune to sustain minor injuries, which may be easily remedied. The Goldsborough (No. 20), building at Portland, Or., is rated at 28 per cent.

A Model Plant is not complete with-
out Electric Power, thus dispensing
with small engines.

Why not generate your power from
one CENTRAL Station? One gener-
ator can furnish power to your Pump,
Centrifugals, Elevators, Pumps, Rail-
ways and Hoists; also, furnish light
and power for a radius of from 15 to
30 miles.

Electric Power being used, saves the
labor of hauling coal in your field, also
water, and does away with high-priced
engineers, and only have one engine to
look after in your mill.

Where water power is available it
costs nothing to generate Electric
Power.

THE HAWAIIAN ELECTRIC COM-
PANY is now ready to furnish Electric
Plants and Generators of all descrip-
tions at short notice, and also has on
hand a large stock of Wire, Chan-
delliers and Electrical Goods.

All orders will be given prompt at-
tention, and estimates furnished for
Lighting and Power Plants; also, at-
tention is given to House and Marine
Wiring.
